EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with George Yee (Reg. No. 37,478).

The application has been amended as follows:

In the Claims

At claim 6, line 11, add the word "directly" after the word "to".

Examiner's Comments

2. The above examiner's amendment was agreed to by the applicant via telephonic interview of 8/3/06 and was made to more clearly define the applicant's invention over the prior art (see reasons for allowance below).

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance: The prior art of record taken alone, or in combination, fails to teach or suggest a storage system

Art Unit: 2182

comprising a plurality of disk drive units and first and second connection units, wherein the second connection unit is coupled between the disk drive units and a plurality of file servers, such that the connection unit can directly connect any one of the file servers to any one of the disk drive units, in combination with the other recited claim limitations. U.S. Patent No. 6,691,749 to Kleiman discloses a system comprising a plurality of disk drive units, a plurality of file servers, and a connection unit, however there is no direct connection between all of the file servers and all of the disk drive units as claimed by the applicant (i.e. the system of Kleiman discloses an indirect connection between a subset of file servers and a subset of disk drives).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eron J.
